

All prices DO not include taxes ***

For the espresso machine, the price you pay is the price listed (plus tax) and we will cover the following:

- Shipping of Machine from Manufacturer and delivery of machine to shop
- Bench Test (ensures machine has arrived without any damage and the machine works as intended out of the box, also helps cover any warranty disputes between the client and the manufacturer, if such should arise)
- Standard Installation (Basically I will plug it into the electrical, drain line, and water supply, anything else needed will be charged at standard service rates)
- A preventative maintenance visit as 6 months and 12 months (also helps maintain warranty integrity w/ manufacturer)
- 12 month warranty on all parts (through Marzocco/Nuova Simonelli)
- 12 month warranty on any labor (Covered by Xanadu Coffee)

Performing the bench test, installing and filling out all paperwork provided demonstrates everything was installed properly so the machine warranty with Marzocco remains intact and in good standing.

We ask for 1/2 down on machine order and the other half upon machine delivery along with the full fulfillment of any other purchased items (grinders, water filters, etc..) .

For all orders over \$2,000, we ask payment be made via check, cash, or money order. If you want to use a card, we can accommodate it but will have to assess a 3% processing fee to the order.
